A. Background

BLM Office: Hassayampa Field Office (HFO)
Lease/Serial/Case File No.: AZAR-018659/AZA-036035
Proposed Action Title/Type: ROW/12kV Powerline
Applicant: Arizona Public Service
Sub-project Number: LVRRAA912AI32
Location of Proposed Action:

T. 12 N., R. 1 E., G&SR Meridian, Yavapai County, Arizona
Section 23, lot 3

USGS Mayer 1974 7.5 Minute Series Quadrangle, Topographic Map, Arizona - Yavapai County.
The subject land is located approximately one-half mile due east of Mayer, Arizona just north of highway 69.

Description of Proposed Action:

The right-of-way grant for this 12kV distribution line was originally issued on July 2, 1959. The line, known as the "Sears Pump Extension", is 104 feet in length by 15 feet in width and provides power to a water well pump. The applicant, Arizona Public Service, has requested that the right-of-way be reauthorized under FLPMA and a new right-of-way grant issued. There is no construction or other ground disturbing activities associated with the "renewal" of this grant.

B. Land Use Plan Conformance

Land Use Plan (LUP) Name: Bradshaw Harquahala Resource Management Plan
Date Approved/Amended: 4/22/2010

☐ The proposed action is in conformance with the applicable LUP because it is specifically provided for in the following LUP decision(s):

☒ The proposed action is in conformance with the LUP, even though it is not specifically provided for, because it is clearly consistent with the following LUP decision(s) (objectives, terms, and conditions):

Land Use Authorization LR-24, "Continue to issue land use authorizations (right-of-way, leases, permits, easements) on a case-by-case basis and in accordance with resource management prescriptions in this land use plan."

C: Compliance with NEPA

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with BLM NEPA Handbook H-1790-1, Appendix 4 or 516 Departmental Manual (DM) 11.9:

Categorical Exclusions E. Realty (11), "Conversion of existing right-of-way grants to Title V grants or existing leases to FLPMA Section 302(b) leases where no new facilities or other changes are needed".

A categorical exclusion (CX) is appropriate as there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in H-1790-1, Appendix 5 or 516 DM 2, Appendix 2 apply.

[NOTE: Appropriate staff should determine exception, comment, and initial for concurrence. If exceptions apply to the action or project, and existing NEPA documentation does not address it (i.e., Part III) then further NEPA analysis is required. Attachment 1 (BLM Categorical Exclusions: Extraordinary Circumstances), enclosed, is a checklist of each extraordinary circumstance and corresponding staff concurrence].

D. Signature

Review: We have determined that the proposal is in accordance with CX criteria and that it would not involve any significant environmental effects (see Attachment 1). Therefore, it is categorically excluded from further environmental review.

E. Contact Person

For additional information concerning this CX review, contact: Michael Rice, Project Manager APS Team, by phone 623-580-5646, e-mail mrice@blm.gov, or the BLM Phoenix District Office address at 21605 N. 7th Avenue Phoenix, Arizona 85027.

Note: A separate decision document must be prepared for the action covered by the CX.

F. Recommendation

Project Description: The applicant has applied for a right-of-way seeking authorization for the continued use of an existing powerline ROW (AZAR-018659). The 12kV powerline provides power to a water well and if approved, the new grant would be issued for a term of 30 years, expiring in 2038.

Determination: Based on a review of the project described above and field office staff recommendation in Attachment 1 (BLM Categorical Exclusions: Extraordinary Circumstances), I have determined the project is in conformance with the land use plan and is categorically excluded from further environmental analysis. I concur with the proposed action provided the right-of-way includes all of the relevant stipulations contained in the original grant as well as those that are now being included in new right-of-way grants.
